OTHER INGREDIENTS: Dicalcium phosphate, gelatin, Methylxanthine Complex (caffeine anhydrous, kola nut powder and guarana seed powder), microcrystalline cellulose, maltodextrin, stearic acid, magnesium stearate, cinnamon root extract, titanium dioxide, evodiae root extract, fenugreek extract, vinca minor L. extract, FD&C yellow #5 & #6, FD&C red #40, FD&C blue #1. Made in a GMP facility that uses milk, soy, egg, peanuts.

INGREDIENT NOTES: Creatine MagnaPower (Magnesium Creatine Chelate) is a registered trademark of Albion Laboratories, Inc., and is covered by U.S. Patent 6,114,379 and patents pending. Bioperine® is a registered trademark of the Sabinsa Corporation (U.S. Patents #5,536,506, #5,744,161, #5,972,382). Cinnulin PF™ is a registered trademark of Integrity Nutraceuticals International. Antioxidant Complex includes ascorbic acid and sodium selenite in the 700 milligrams.

DOSAGE: As a "core" or foundational preworkout supplement, take a single pack 30-45 minutes before you lift, preferably on an empty stomach. As each pack also contains your full, daily dose of creatine, take Pump every day for optimal results. On non-training days, you can take the pack around the same time as you would if you were training. You can remove the red capsule (stims) on off days, or if you train at night.

ACTUAL COMMENTS: We also got some valuable feedback from the testers. Here are some actual quotes from the lifters who used Animal Pump...

"Animal Pump gives high energy levels. Nothing else compares to it, because I didn't get that anxiety feeling from it, just great useful energy and not the shakes either... There are a ton of supplements out there that say they do certain things but really don't. I for one loved this product. For the past year I have been having trouble with my gains in strength and muscularity and losing the body fat. For some reason this product has seemed to jar something in my system to help my gains tremendously in the past 4 weeks. People at my job have actually been asking me if I was taking steroids, but they can also tell that it was natural... I plan on competing in January for bodybuilding and I think this would be the final thing I need to be completely ready."
- Fabian F., Richmond, VA

"Animal Pump definitely helped me get better workouts, and motivated me to use heavier weight than I normally did. It gave me an extra 'push'. Sort of like a training partner in a pill."
- Tim B., N. Huntingdon, PA
