

CARBOX

THE FORCE MAY BE WITH YOU!

Powered by Multi-Interval CarboX™, this highly advanced complex carbohydrate formula is engineered to be taken before and during your training session.

CarboX™, like all BioTech USA products, consists of safe, carefully selected nutrients.

CarboX™ is designed with 5 forms of carbohydrates, each of different complexity. CarboX™ also delivers Palatinose™, containing isomaltulose that compared to other sugars induces a lower blood glucose rise after its consumption.

WARNINGS: Store between 5-30°C (41-86°F) and the relative humidity below 70%. Keep away from direct heat, moisture and sunlight.

RECOMMENDED USE:

Take 50 g of CarboX™ with 300 ml of the beverage of your choice. Use one serving of CarboX™ before or during training and competition.

INGREDIENTS:

Dextrose, Maltodextrin, Fructose, Ribose, Palatinose
