- NO Proprietary Blends
- NO Underdosed Key Ingredients
- NO Banned Substances
- NO Fillers
- NO Hype
- NO Exceptions

Just the Most Powerful Formulas Available

The Complete Sustained-Release 8-Hour Protein Formula

PHASE8™ is designed to do one thing – feed your muscles the highest quality blend of protein available. Each serving of PHASE8™ delivers a 26-gram blend of proteins taken from multiple sources with variable digestion rates. The multiple release rates of amino acids feeds your muscles for 8 hours – that's prolonged delivery of key musclebuilding blocks, making PHASE8™ the perfect protein for any time of the day – or night.▲

• 8-Hour Sustained-Release Protein Absorption

The main protein component in PHASE8™ has the unique ability to release amino acids in your bloodstream for 8 hours after taking it.¹ Because of these sustained-release properties it's a highly anabolic and anti-catabolic protein that helps create a musclebuilding environment for longer periods of time.▲

• 6 High-Quality Protein Sources

Overall, PHASE8™ contains protein sources designed to digest at different rates – putting your body in the perfect state for repair and recovery.▲

• Biological Value of Protein Sources

Protein	BV	PHASE8™
Hydrolyzed Whey Protein Isolate	104	✓
Whey Protein Isolate	104	✓
Whey Protein Concentrate	104	✓
Milk Protein Isolate	91	✓
Calcium Caseinate	77	✓
Micellar Casein	77	✓
Soy Protein	74	X
Brown Rice	70	X

Other multi-phase protein formulas contain protein derived from plant sources, such as brown rice or even soy, and are often loaded with fat and carbs. PHASE8™ contains high quality milk-derived protein and has half the fat and carbs of the leading competitor.

• PHASE8™ Multi-Phase Protein Delivery Digestion Rates

Protein Blend in PHASE8™

• Best-in-Class Taste

PHASE8™ was flavored by one of the world's top flavoring houses by protein flavoring experts in order to taste better than any other protein on the market.

• Take Anytime: Morning, Pre- and Post-Workout and at Night

PHASE8™ contains a unique blend of proteins that allows you to take it whenever you need it. The multi-phase protein delivery supplies the needed quick release of amino acids for post-workout amino acid delivery, the medium release protein phase for between meals and the slow-digesting protein phase for night time use – making PHASE8™ the perfect choice for any situation.
