

AMINO 5600 is a wide spectrum amino acid formula with - among others - all the essential and branched-chain amino acid types. Essential amino acids are indispensable for us because they cannot be synthesized by the body and therefore must be supplied in the diet. The branched-chain amino acids (BCAA's) are also essential ones and they account for approximately 35% of the essential amino acids in muscle proteins. AMINO 5600 is manufactured from high-quality proteins with the addition of free-form L-Glutamine!

Warnings: Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such. Keep out of reach of children. Don't exceed the recommended daily dosage.
