

**Directions:** Mix one serving with 500 ml water. Preferably use 30 minutes before training, or after training or before any meal. Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such.

Attack the weights with ferocity with the help of our complex pre-workout Creatine booster formula! Don't take part in the futile debate of which single Creatine type is the best – take many types! "Carpet bomb" your muscle cells with important versions of Creatine with our "CREA-BOMB" matrix. Each serving gives you 5 grams of the most studied Creatine, Creatine Monohydrate (and other Creatines in our proprietary matrix). At least a 3 g daily dose of Creatine is scientifically proven to increase performance in successive bursts of short-term, high intensity exercise like weight training and interval cardio.\* ATTACK! 2.0 contains a good dose of extra amino acids, and vitamins, plus intermediates of the energy producing Krebs-cycle. Some of our key ingredients contribute to one or more of the following beneficial physiological effects\*:

- Normal energy-yielding metabolism.
- Reduction of tiredness and fatigue.
- Normal amino acid synthesis.
- Normal functioning of the nervous system.
- Normal function of the immune system.
- Normal blood formation.
- Normal psychological function.

\*These statements have been scientifically proven by the European Food Safety Authority (EFSA) and authorized by the European Commission (EC).

**Warnings:** KEEP OUT OF REACH OF CHILDREN! Don't exceed the recommended daily dosage.

**Store in a cool, dry place. Heat and sunlight may damage the bottle!**

**Best before end:** see on packaging. (MM/YYYY) **Batch number:** see on packaging.
