

MIX OF 3 COMPLETE PROTEINS

PROMIX

CHOCOLATE
FLAVOR

NET WT: 912 G

DIETARY SUPPLEMENT

DIRECTIONS: PROMIX can be used with any meal to boost its protein content or by itself. Mix 1-2 servings with any liquid to make a shake. Use 300 ml water, milk or juice per scoop. This is not a meal replacement product, use only as a food supplement.

PROMIX is a blend of three complete protein sources: whey protein, casein (the other milk protein) and soy protein. A protein is called complete, when it provides the body with all necessary amino acids, including the 9 amino acids (i.e. Histidine, Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine) that are considered essential for life, because the body cannot synthesize them. Dietary proteins are the source of nitrogen and indispensable amino acids, which the body requires for tissue growth and maintenance. PROMIX is high in protein, thus it contributes to the maintenance and growth of muscle mass and also to maintenance of normal bones*. We added Taurine to the formula.

Aspartame free!
